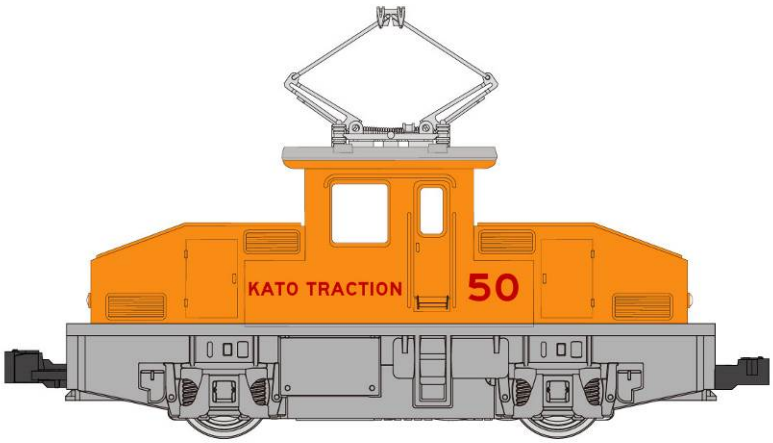
N Pocket Line Series Steeple Cab Electric Locomotive

Available July 2021



A long awaited New Pocket Line Series Locomotive with US style paint scheme will become available in summer 2021!
The product is designed to resemble the antique 1920's steeple cab electric locomotive, which is still in operation for daily freight service at the Iowa Traction Railway.
With KATO Knuckle Coupler & improved mechanism with a coreless motor, our "KATO Traction #50" locomotive pulls your freight cars with good "Traction" just like the prototype!

Model Features

- KATO Knuckle Coupler equipped to operate with KATO freight cars.
- Smooth running mechanism with excellent traction and a coreless motor.
- Perfect for the operation in a small limited space!
