35037 Navigator Remote 2.4GHz (To be used only with 35038)
35038 Wireless Receiver 2.4GHz (To be used only with 35037)

The new 35037 2.4GHz Navigator Remote and 35038 Wireless Receiver work together as part of a complete PIKO G-Digital system, along with a 35010 Central Station and a 35020 Transformer. The Navigator includes a large backlit display with detailed train and system information. The large throttle knob enables precise control. The simple and clear function buttons have a positive tactile feel. The PIKO G-Digital System gives convenient DCC control of multiple trains, switches and accessories, and it is easily expandable. Note: The 35037 and 35038 are not compatible with previous versions of Navigators and Receivers.

Adding to the Series!

Honoring the Greatest Generation
and the planes that made history.

- Photo-realistic graphics!
- Original licensed artwork!
- Produced only once!

38928 Vintage Warbirds Spitfire Hopper

The famous Supermarine Spitfire was designed to be a short-range, high-performance interceptor aircraft and it was the most-respected British design of the times. Now, PIKO presents this plane in a stunning and evocative scene with the seventh car in the Vintage Warbirds series.  

38922 American Traditions Betsy Ross Reefer

Betsy Ross has been a symbol of American patriotism, service, talent and so much more for generations. Tradition holds that she was a vital contributor in the creation of the first American flag. As a seamstress, she was also known to have produced other flags for military and civilian use during the same era.

The Betsy Ross Reefer is the first design in our new American Traditions series, weaving together many significant icons of American history, culture and traditions—things which have contributed to our society and heritage. We have spared no expense in commissioning completely original fine artwork, vividly reproduced on the car as only PIKO can bring you. **Produced only once.**

38123 Christmas Freight R/C Starter Set

Features a Mini-Mogul loco and tender with smoke and analog sound, two ore cars, work caboose with a load of mini packages, all in colorful Christmas decorations. Also includes the PIKO R/C control system with a convenient pocket remote, plus a safety-approved power supply and a circle of the best brass track made.

38905 Christmas Boxcar 2021

We continue the tradition of annual Christmas cars with the 11th in the series, featuring another phrase from the classic Christmas poem. Two charming and entertaining scenes decorate this boxcar. **Produced Only Once.**

38777 Central Park Christmas Tree Transport

In an homage to outdoor civic decorations at Christmastime, PIKO created this unique transport for a large Christmas tree headed to the city park. The car carries a model tree and the car sides feature retro scenes recalling the big city skyline.

Produced Only Once.

38915 North Pole Express Ore Car, 2-Pack

Whether you're adding onto a PIKO Christmas starter set or some other train, these colorful and festive Christmas ore cars are great for carrying ornaments or candy. They'll look beautiful snaking around the tree or wherever the tracks run. These two cars feature completely original commissioned artwork, applied as only PIKO does.

Produced only once.

38927 Halloween "Moonlit Monsters" Hopper

From the folks that brought you the very first Halloween-themed G-Scale cars, PIKO brings you more. This model has glow-in-the-dark highlights and shows a colorful original scene of some mischievous little monsters, out for Halloween treats.

Produced only once.

38929 Halloween "Tacky Tombstones" Hopper

This year, PIKO brings you double the spooky Autumn entertainment, including this scene with some humorous railroad-themed tombstones. You might call them silly, tacky, or zany - we just call it Halloween fun! **Produced only once.**

(This design does not have glowing highlights)
