

Autumn New Items 2021

0-24 V

38123 Christmas Freight R/C Starter Set

Features a Mini-Mogul loco and tender with smoke and analog sound, two ore cars, work caboose with a load of mini packages, all in colorful Christmas decorations. Also includes the PIKO R/C control system with a convenient pocket remote, plus a safety-approved power supply and a circle of the best brass track made.

38905 Christmas Boxcar 2021

We continue the tradition of annual Christmas cars with the 11th in the series, featuring another phrase from the classic Christmas poem. Two charming and entertaining scenes decorate this boxcar. **Produced Only Once.**

38777 Central Park Christmas Tree Transport

In an homage to outdoor civic decorations at Christmastime, PIKO created this unique transport for a large Christmas tree headed to the city park. The car carries a model tree and the car sides feature retro scenes recalling the big city skyline. **Produced Only Once.**

38915 North Pole Express Ore Car, 2-Pack

Whether you're adding onto a PIKO Christmas starter set or some other train, these colorful and festive Christmas ore cars are great for carrying ornaments or candy. They'll look beautiful snaking around the tree or wherever the tracks run. These two cars feature completely original commissioned artwork, applied as only PIKO does. **Produced only once.**

38927 Halloween "Moonlit Monsters" Hopper

From the folks that brought you the very first Halloween-themed G-Scale cars, PIKO brings you more. This model has glow-in-the-dark highlights and shows a colorful original scene of some mischievous little monsters, out for Halloween treats. **Produced only once.**

38929 Halloween "Tacky Tombstones" Hopper

This year, PIKO brings you double the spooky Autumn entertainment, including this scene with some humorous railroad-themed tombstones. You might call them silly, tacky, or zany - we just call it Halloween fun! **Produced only once.**

(This design does not have glowing highlights)
