

WOWSound

SIEMENS ALC-42 CHARGER (TCS WOWSOUND® EQUIPPED)

Performs best on 22" radius curves or greater.

Suggested price: \$469.00 each

SHIPPING NOVEMBER

The future of long-distance passenger railroading is heading your way this year! Based on the highly successful medium-distance SC-44 Charger, the ALC-42 displays a range of new features for cross-country service on America's most scenic and storied routes, including a unique nose design and cab door configuration. Bachmann's ALC-42 Charger has been developed in collaboration with Siemens Mobility, using original design documentation and prototype field recordings for maximum realism. Features include a TCS WOWSound® CD-quality 16-bit 44,100Hz decoder with Audio Assist® for easy configuration without CVs, and a Keep-Alive® device for uninterrupted operation, even over dirty track. The WOWSound® diesel-electric locomotive package includes an authentic horn, bell, prime mover, startup/shutdown, compressor, cooling fan, coupler close/release, brake release/application, crew alert, grade crossing quill, station announcements, and more.

Additional features include:

- Siemens-approved design
- DCC sound-equipped for sound, speed, direction, and lighting control
- true CD-quality audio in 16-bit 44,100Hz sound
- Keep-Alive® device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist® programming tool for easy set-up of almost all decoder functionality
- dual-mode NMRA-compliant decoder
- directional headlights and marker lights
- interior corridor work lights
- steady/alternate flashing ditch lights
- die-cast frame with separately applied windshield wipers, grab irons and detail parts
