

55' STEEL COIL CAR with COIL LOAD

Suggested price: \$67.00 each

SHIPPING DECEMBER

Steel Coil Cars are specialized freight cars designed for carrying rolls of sheet metal for industrial use. Early examples debuted in the 1960s, and today the cars are a common sight on freight trains across North America. Our Steel Coil Car features completely new tooling and is loaded with realistic details.

Additional features include:

- highly detailed painted bodies
- removable coil hoods
- coil load
- precision graphics
- body-mounted *E-Z Mate*® Mark II couplers
- non-magnetic blackened brass axles with needlepoint bearings
- Celcon® trucks

BRITISH BRAKE VAN TRACK CLEANING CAR

with international style hook-and-loop couplers

Suggested price: \$59.00 each

SHIPPING NOVEMBER

Brake Vans are the British equivalent of the North American Caboose. Much like their stateside counterparts, they could frequently be found at the rear of freight trains through much of the 20th Century. As technology advanced, many found a second career in maintenance-of-way operations, helping to keep the rail network moving. The new Bachmann British Brake Van can do exactly this for your railroad. The car's exclusive dry cleaning system features a reusable track cleaning pad to keep your rails shining and your operation trouble-free.

Features include:

- detailed body shell
- reusable and replaceable track cleaning pad
- all-metal wheels
- factory-installed international-style hook-and-loop couplers
- runs on all popular brands of HO track
