Introduced by Pullman in the mid-1960s, the PS-4427 low side covered hopper became the backbone car for many of the large grain hauling railroads as well as the car of choice for many leasing companies. The 4427 also was used to haul malt and sand products, which increased their venerability. Many of these hoppers wore colorful, diverse schemes, which featured large logos or lettering. Some of these cars still exist in service today.

Features:

- NEW! Gate tracks on chute
- Upgraded brake wheel
- Sturdy body
- Detailed brake wheel and air reservoir
- Crisp lettering
- Accurate paint schemes
- Knuckle couplers
