

Modern Diesel Fueling Facility Kit

\$37.98 ea

- All-new model for contemporary layouts
- Great addition to yards and engine terminal scenes
- Typical of facilities used by large and small North American railroads
- Builds a typical 3-track fueling pad - easily adapted for longer 2-track model
- Includes six each:
 - Large and small walkways
 - Spill containment pans
 - Fueling cranes
 - Cooling water booms and cabinets
 - Lube oil booms and cabinets
 - Nonworking overhead lights
- Shown assembled, painted and weathered by modeler.

Alternate oil/cooling water cabinet style included

Figures, vehicles, scenery items, and railroad equipment not included.
