

N Pocket Line US Style Steeple Cab Engine

Re-Release coming November 2022

Kato will be re-releasing the sold-out US-Style Steeple cab Engine this coming November!

Resembling an antique 1920’s steeple cab electric locomotive, in particular the type of which is still in operation for daily freight service at the [Iowa Traction Railway](#) the “KATO Traction #50” locomotive pulls your freight cars with good “Traction” just like the [prototype](#)!

Model Features

- KATO Knuckle Coupler equipped to operate with KATO freight cars.
- Smooth running mechanism with excellent traction and a coreless motor.
- Crisp and sharply detailed adjustable metal pantograph.
- Perfect for the operation in a small limited space!
