37155 Freight Building Block Car R/C Starter Set (Building blocks not included in the package)

This new PIKO freight set includes a great GE 25-Ton diesel loco and two building block cars. With this set, the imaginations of young (and not-so-young!) model railroaders can run wild with a train car that may be built and rebuilt any way they want it. Aspiring railroaders can use their favorite building blocks for nearly unlimited possibilities! Whether running trains alone or with others, younger modelers can constantly be creating new works of art with this fun set from PIKO. This set is just another way others can join in the PIKO family fun.
