PROCOR 5820 COVERED HOPPER

Plastic pellets are an often overlooked, but highly important commodity in the manufacturing world. Almost everything you see that's made of plastic was once carried by covered hopper car in pellet form.

Rapido is proud to present the Procorm 5820 Covered Hopper car, now in N scale. Designed fully by Procorm, this hopper was built in batches from the late 70s all the way up through the early 90s. Around 1500 examples were built for Procorm and Dow Chemical in their Oakville, Ontario facility. Essex Hybrid would later receive a handful of cars for seed service. Many of these were ex Procorm hoppers patched out.

The Rapido Procorm 5820 Covered Hopper car was designed from blue prints, photos and field measurements. Multiple roof hatches, outlet gates cap off this workhorse car. For any layout that needs a fleet of pellet hoppers, the Procorm 5820 is a car you won't want to miss!

The Procorm 5820 Covered Hopper features:

- Three styles of roof hatches: round, round with ribs and 20" vented cover
- Two styles of outlet gates: pneumatic and Miner
- Etched walkways
- Spare hatches included in polybag to let modeler modify for different era
- Full end cage details
- Accurate paint and lettering
- Multiple road numbers available for each scheme
- Available in singles or multi-packs (Dealers must order multi-packs)
- Multi-packs boxed for individual sale

Note: Decorated cars have six OR three individual car numbers depending on paint scheme. These will be available as either a six pack or three pack (six or three individual cars shrink wrapped together) and are **easily broken up for individual sale.**

MSRP

Single Car	\$39.95 USD	\$47.95 CAD
3-Pack	\$119.85 USD	\$143.85 CAD
6-Pack	\$239.70 USD	\$287.70 CAD

Order Deadline Dec 15, 2022
Expected Delivery TBA
