

ATLAS Z SCALE LAYOUT LIGHTING

Commonly used on both residential main roads and highways, Atlas' new streetlights provide a timeless design suitable for use from the 1960's through today. With a choice of LED providing a warm glow seen with incandescent bulbs, or a more modern cool white "daylight" bulb, these lights can be used in various eras, and include appropriate resistors for use with a range of input voltage (commonly between 6-18 Volts DC).

Features:

- Classic "whip" design for streetlights – single and dual arm versions for single lane or multiple lane roads
- Parking Lot design perfect for industrial area lighting
- Choice of warm or cool white LED for era-appropriate illumination
- All necessary resistors included for installation

ESTIMATED ARRIVAL:

**1st Quarter
2023**

Single Arm Streetlight

Double Arm Streetlight
