1632 Layout Lightning Storm

What's included:

- 2 High-Brite Multi-LED Lighting Strip
- 1 Amplified Layout Speaker (5 inch, 25 Watt) with Enclosure
- 1 Lighting and Sound Controller Kit
- Classic Push Button activator
- RCA cable
- Wood Screws
- RCA Y-Adapter

Features and Effects:

- Creates realistic thunder storm lighting and sound conditions!
- Amplified layout mounted speaker provides powerful thunder, wind and rain sounds (mounts beneath your layout)
- The Layout Lightning Storm accessory provides amazing sound right out of the box. If you'd like even more thunderous bass, we are including an output to connect to any subwoofer.

If you're looking to take your model railroad to the next level, adding Layout Lightning Storm is a game-changer. With its realistic lightning effects, this technology adds an exciting new dimension to your layout. Imagine the thrill of watching lightning flash in the distance as your trains pass by in your miniature world. Or perhaps you want to get a head start on decorating for Halloween with some spooky lighting. Not all days on the railroad are sunny! Activate realistic driving rain and wind sounds with lightning that strobes with dramatic effect and thunder claps that shake the room - all with the push of a button!
