Water Tender 2-Car Set, and Excursion Train 7-Car Set

- Water Tender two-pack and Union Pacific Excursion Train! -

The Water Tenders are our most recent design and will be sold as a two-pack for modelers to supplement their FEF-3 or other UP steam locomotives, such as the **4-8-8-4 Big Boy**. Just like the prototype models, the two tenders are not identical, having (in addition an externally mounted American Flag plate) different weld mark details which will be replicated on the models of the two cars, ensuring that their unique spirit is preserved when translated into model form. An optional DCC-friendly headlight PCB will be available to allow the tender's lights to be illuminated as well!

The third component of this Union Pacific re-release will be our **7-car UP Excursion Train**. This set features our latest tooling for the Power Car (a modified/rebuilt Baggage Dormitory car prototypically used for providing head end power to the trailing cars) and a UP Business car "Kenefick." These will form the head and tail of the excursion consist, which will also include notable cars like the vibrantly decorated Promontory Museum car, with its full-body American Flag wrap, and a pair of Dome cars.

- UP Water Tender 2 Car Set: Shipping April 2025

- UP Excursion Train 7 Car Set: Shipping April 2025

- Pre-Order Deadline for all items: September 30th, 2024 -
