FGE BUILT WOOD REEFERS

ADVANCE RESERVATION

Eight colorful paint schemes are being offered in this run of FGE wood refrigerators. Three have been previously offered by InterMountain with five schemes being offered for the first time, including three road numbers that were preserved by several railroad museums. Fruit Growers Express built their own reefers to service several partnering railroads. Many of these cars could be seen all over the US and Canada. Transporting perishable freight from apples from the Pacific Northwest to Beer out of Colorado and Oranges from Florida, these cars were everywhere!

EVANS COIL CARS

NOW SHIPPING!

Seven paint schemes of the Evans 100 Ton Coil Car are available for shipping. These feature the rounded hood version of the prototype and six of these schemes have not been produced by InterMountain before. Each model includes two diecast metal "coil steel" weights. They are finely detailed with laser sharp decoration, and are equipped with precision InterMountain metal wheelsets and operating metal knuckle couplers.

BI-LEVEL AUTORACKS

NOW SHIPPING!

One of InterMountain Railway's most popular freight cars is the bi-level Autorack, featuring photo etched metal side panels, accurate details, crisp painting and lettering, InterMountain metal wheelsets, and metal knuckle couplers. Eight paint schemes are available for purchase including four new paint schemes frequently seen throughout North America. In the late 1970's, automakers approached the railroads about improving the protection of automobiles shipped by rail from weather and tampering enroute. Several designs were developed but the fully enclosed approach became the preferred solution for both railroads and the automotive industry. In many instances Trailer Train provided the flat car, and the railroad would purchase the rack on the top of the trailer from Thrall or another builder. Many of these cars were in assigned service, sometimes the Autorack would spend most of its service far away from the railroad it was lettered for.

BALL BEARING WHEELSETS

InterMountain is pleased to announce the arrival of our highly anticipated 36" precision ball bearing wheelsets. These popular wheelsets will likely sell very quickly so confirm your reservations right away. The 33" wheelsets are currently in production and will be available in the near future. Be sure to check your inventory and add to your wheel order what you may need.

NEW FACEBOOK PAGE!

Due to technical difficulties it has been necessary for InterMountain to reestablish its Facebook page. The new page can be accessed with the link below or the QR Code.
