GE ES44AC GEVO LOCOMOTIVE

ADVANCE RESERVATION

Due to the lengthy time from the beginning of the Advance Reservation period for these locomotives, all Advance Reservations taken are being cancelled. We are beginning a new Advance Reservation period for these locomotives, which were on reservation before. We are starting over and expect to have production completed by mid-year! Please make your Advance Reservations for these locomotives so that we can go to production at the earliest possible time. All of these models will be equipped with a newly tooled drive with a larger motor and added weight for more pulling power. Each paint scheme has road name specific details for prototypical accuracy. We are looking forward to bringing this exquisite version of the ES44AC to market!

N
Scale

EMD SD40-2 LOCOMOTIVES

READY TO SHIP!

Eight colorful paint schemes of the N scale SD40-2 locomotives are ready to ship! Each scheme features specific details and multiple prototypical road numbers when available. All models are decorated with laser sharp decoration and are equipped with operating knuckle couplers. Please confirm your Advance Reservations as soon as possible as quantities are limited for some items.

SHOW TIME - COCOA BEACH PROTOTYPE MODELERS EVENT

If you are in the area stop by the Hilton Hotel in Cocoa Beach and visit the InterMountain display. Doug will be there to show samples of recent releases and answer any questions you may have! The Prototype Modelers Meet is on Friday and Saturday, January 10th and 11th!

NEW FACEBOOK PAGE!

Due to technical difficulties it has been necessary for InterMountain to reestablish its Facebook page. The new page can be accessed with the link below or the QR Code.

Updated 21-pin Motherboard

Additional Weight

Updated Electronics

Front and Rear Contact Tabs for Bright Ditchlights

Enhanced Frame Detail

Rendering of New Drive

Large Can Motor

Animated Spinning Roller Bearing Caps

MODEL FEATURES:

- Fully-assembled and ready-to-run
- DCC-equipped features Lok Pilot DCC decoder installed on a 21-pin connector motherboard
- Scaled from prototype resources including drawings, field measurements, photographs, and more
- Accurately-painted and -printed paint schemes
- Coupler cut levers
- MU hoses
- Trainline hose
- See through cab windows
- Full cab interior
- Walkway tread
- Fine-scale Celcon handrails for scale appearance
- Windshield wipers
- Lift rings
- Wire grab irons
- Detailed fuel tank with fuel fillers, fuel gauges, breather pipes, and retention tanks
- Metal knuckle couplers - Kadee compatible

- Driveline with 5-pole skew wound motor, precision machined flywheels, for trouble free operation
- All-wheel drive with precision gears for smooth and quiet operation
- All-wheel electrical pickup provides reliable current flow
- Wheels with RP25 contours operate on all popular brands of track
- Animated spinning roller bearing caps
- LEDs for realistic appearance
- Bidirectional constant lighting so headlight brightness remains constant
- Heavy die-cast frame for greater traction and more pulling power
- Packaging securely holds for the model for safe storage
- Sound equipped models also feature
- Onboard DCC decoder with ESU Lok decoder
- Sound units operate in both DC and DCC
- Some functions are limited in DC
- Engine, horn, and bell sounds work in DC
- All functions NMRA compatible in DCC mode
- Slow speed control
- Program a multiple unit (MU) lashup with lead unity only horn, bell, and lights
- Many functions can be altered via Configuration Value (CV) changes
