

- N Scale Santa Fe Starter Set -

New From Kato- The Santa Fe Super Chief Starter Set (106-0018): In 1935 the Santa Fe inaugurated its premier first-class sleeping car only train the "Super Chief". The "Super Chief", often referred to as "The Train of the Stars", was frequently patronized by Hollywood stars because of its fine accommodations, fine dining and fast 39-hour and 45 min trip between Chicago and Los Angeles through the rich scenery of the American Southwest. Setting a new standard for luxury rail travel, it quickly became the most recognized train in the United States with its sleek silver and red warbonnet painted F units in the lead. And now you can start off your model train with this iconic train set!

Set Includes:

- Iconic Santa Fe F-Unit #300
- Sleeper 'Regal Court'
- Diner #601
- Observation 'Vista Valley'
- Oval of Unitrack
- Kato Power Pack

Set Features:

- Beautiful 'Stainless Steel' Body
- DCC ready locomotive
- Low flange wheels
- Kato magnetic couplers
- Lights in tail car

-N Scale KOBO NW2-***Prototype Information:***

EMD's NW2 switcher's lifetime was nearly cut short just three years after its introduction, with the establishment of the War Production Board in 1942, which dictated that EMD was to halt all production of switching locomotives, manufacturing only road diesels during the years of 1942 to 1945. However, such was the popularity of this end cab switching locomotive that after the restriction was lifted, the NW2 sprung back as many railroads placed orders for this little 1000hp powerhouse; today these locomotives can still be found enjoying continued service in rail yards.

Model Information:

Kato is pleased to be working with Saito Kobo a Master modeler to create 7 new custom paint schemes! Kato's own N scale NW2 replicates each and every rivet of prototype detail with pinpoint precision, while emphasizing low-speed, high-power pulling. It also features directional headlights (without any of the light piping equipment intruding on the interior cab detail), low profile wheels, illuminated number boards, and Kato magnetic knuckle couplers.

Quantities extremely limited for these KOBO NW2!
