**CONDITIONAL
ORDER DEADLINE:
SEPTEMBER 15, 2025**

Introducing the Chicago Transit Authority Budd 2600-series railcars in N scale! These cars have been in service for over 40 years, and we will feature both "delivery" and post-rehab "present day." The "Spirit of Chicago" delivery scheme cars include era appropriate details like two-crew (operator and conductor) operation. Present day rehabbed cars are configured for operator-only operation, with reconfigured seating and windows.

Each offering comes as a married pair like the prototype. Both cars will have wand controlled lighting for headlights, marker lights, interior lights, and marker/destination lights. That's right! Tell the tower operator which way your model is going by cycling through to the correct light combination for each route. Route decals will be provided for user installation.

THE N SCALE CTA 2600 BUDD SERIES 'L' CAR FEATURES:

- Designed from original factory drawings and field measurements
- DC/DCC ready or Dual-Mode DCC/Sound
- Two-car sets feature one powered and one unpowered 2600-series car
- Suggested minimum radius: 9 3/4"
- Operating headlights, marker lights and interior lighting on both ends
- Detailed underbodies
